BSc in Software Engineering
(In Progress) | Bahir Dar
University | 2023 – 2027

SUMMARY

I'm a web developer passionate about building modern, responsive, and user-friendly applications. While I mainly focus on frontend development, I also dabble in backend work, using tools like Node.js and databases to create full-featured projects.

EXPERIENCE

Frontend Developer – Kuraz Technology

- Developed responsive web interfaces using modern frontend technologies..
- Assisted in integrating frontend with backend APIs for dynamic functionality.

Cybersecurity Trainee – INSA Cyber Talent

- Learned and practiced cybersecurity fundamentals, including web application security.
- Gained hands-on experience with security tools, vulnerability assessment, and ethical hacking.
